

Let's play lake appreciation bingo. Can you complete five activities in a line?

L	A	K	E	S
Go for a walk on Long Pond Preserve	Go fishing	Have a picnic overlooking a lake	Watch for wildlife on, around, or in our lakes	Visit the website <a href="http://threelakescouncil.org">threelakescouncil.org</a> and find a new lake fact
Paddle the channel between Lake Waccabuc and Lake Oscaleta	Display a Three Lakes Council boat sticker on your boat	Learn about zebra mussels and how to keep them out of our lakes	Watch the sunset	Write a haiku about one or more of our lakes
Pick up trash around your lake	Go wading and describe what you feel.		Find at least four different aquatic plant flowers.	Go canoeing, kayaking, or paddleboarding
Go for a swim	Look closely at the water. Imagine describing it to someone who has never seen a lake	Take a safe boating course	Paddle the channel between Lake Oscaleta and Lake Rippowam	Read how to be a good lake neighbor in the newsletter
Learn the names and to recognize five aquatic plants in our lakes	Take a picture of people enjoying the lake	Look at the lake bottom. Is it mucky, sandy, or rocky? Do plants grow there?	Watch the dragonflies and damsel flies flit about. Learn the difference	Sit by the lake and listen for three different bird calls and one frog

Thanks to NALMS for the idea.
